

Policy for unauthentic News Circulation

The purpose of this policy is to restrict the unauthentic news circulation by employees without adequate caution.

It has been observed that market news circulated through blogs/chat forums / email / verbally by employees without adequate caution can do considerable damage to the normal functioning and behavior of the market and distort the price discovery mechanisms.

Employees/Temporary staff/ voluntary workers etc working in the office will not encourage or circulate rumours or unverified information obtained from the client, industry and trade or any other sources without verification.

If any employee fails to follow these regulations he /she will be liable for strict actions .
